**RAIN
BARRELS
AVAILABLE!**

Every year, the MFCRWD partners with local organizations to coordinate and participate in numerous educational/outreach events. Some of these events include Earth Day, Paddle the Crow, Prairie Pot-hole Days, Clean Up the Crow and various Educational Workshops.

The MFCRWD strives to bring helpful, meaningful, and fun programs to area citizens.

Today's students are tomorrow's stewards. Such is the philosophy behind the Middle Fork Crow River Watershed District's (MFCRWD) education program. By teaching students about the many different ways our actions can affect water quality, they will ultimately be empowered to make choices that can positively impact the health of our lakes and streams. The MFCRWD partners with three area schools; Atwater/Cosmos/Grove City, Belgrade/Brooten/Elrosa, and New London/Spicer.
