INDEPENDENT AUDITOR'S REPORT

Board of Managers
Middle Fork Crow River
Watershed District

We have audited the accompanying financial statements of the governmental activities and each major fund of Middle Fork Crow River Watershed District as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Middle Fork Crow River Watershed District as of December 31, 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other-Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and schedules of proportionate share of net pension liability and employer contributions on pages 4 through 10 and pages 29 through 32 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The Board of Managers page and other supplementary information identified in the Table of Contents have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on the information presented.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 29, 2018, on our consideration of Middle Fork Crow River Watershed District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance the *Government Auditing Standards* in considering Middle Fork Crow River Watershed District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS
December 31, 2017**

INTRODUCTION

A petition was filed with the Minnesota Board of Water and Soil Resources on November 16, 2004 to establish the Middle Fork Crow River Watershed District (District). The District was established on April 27, 2005, under Minnesota Status § 103D.205.

The District is a local unit of government that works to solve and prevent water related problems. The District will conduct water quality surveys of lakes and streams within the district, conduct education and volunteer programs, implement best management practices, and manage other projects related to fulfilling the purpose of the District.

This section of Middle Fork Crow River Watershed District's annual financial report presents Management's Discussion and Analysis of the District's financial performance during the year ended December 31, 2017. Please read it in conjunction with the District's financial statements, which immediately follow this section. The Management's Discussion and Analysis (MD&A) is an element of Required Supplementary Information specified in the Governmental Accounting Standards Board's (GASB) Statement No. 34 – *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments* issued in June 1999.

OVERVIEW OF THE FINANCIAL STATEMENTS

The financial section of the annual report consists of three parts. They are:

- Independent Auditor's Report,
- Required Supplementary Information which includes the Management's Discussion and Analysis (this section), the General Fund Budgetary Comparison Schedule, the Schedules of Proportionate Share of Net Pension Liability and Employer Contributions, and
- Basic Financial Statements.

The basic financial statements include two kinds of statements that present different views of the District:

- The **District-Wide Financial Statements**, including the statement of net position and statement of activities, provide **short-term** and **long-term** information about the District's **overall** financial status.
- The **Fund Financial Statements** focus on individual parts of the District, reporting the District's operation in **more detail** than the District-wide statements.

OVERVIEW OF THE FINANCIAL STATEMENTS (continued)

District-wide Statements

The District-wide statements (Statement of Net Position and Statement of Activities) report information about the District as a whole using accounting methods similar to those used by private sector companies. The statement of net position includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two District-wide statements report the District's net position and how they have changed. Net position – the difference between the District's assets and liabilities – are one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net position are indicators of whether its financial position is improving or deteriorating, respectively.
- To assess the overall health of the District requires consideration of additional non-financial factors such as community support for District Programs and activities.

In the District-wide financial statement the District's activities are shown in one category titled "governmental activities".

- **Governmental activities** – The District's basic services are reported here, including District Programs and administration. Tax levies, state aid, and grants finance most of these activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's major funds.

The District maintains the following fund:

- **Governmental funds statements** – The District's basic services are included in governmental funds that generally focus on:
 - 1) how cash and other financial assets that can readily be converted to cash flow in and out, and
 - 2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps to determine whether there are more or less financial resources that can be spent in the near future to finance the District's programs.

FINANCIAL HIGHLIGHTS

Key financial highlights from the Statement of Net Position and the Statement of Activities for the 2017 fiscal year include the following:

- Net position totaled \$528,858 in the thirteenth year of operations.
- Revenues totaled \$571,749 and were \$11,642 more than expenses of \$560,107.
- The District's \$560,107 of expenses were for administrating the District and the revenues were primarily from taxes from the various counties, which are part of the Watershed's District, grants and state aid.

The following Table I reflects the District's condensed summary of the Statements of Net Position as of December 31, 2017 and 2016:

FINANCIAL HIGHLIGHTS (continued)

General Fund (continued)

Total General Fund revenue decreased by \$183,772 from the previous year. The mix of property tax, state-aid, and grants can change significantly from year to year.

The following schedule presents a summary of General Fund expenditures:

**Table VI
General Fund Expenditures**

Function	Year Ended December 31,		Change	
	2017	2016	Increase (Decrease)	Percent (%)
Conservation of natural resources	\$ 503,516	\$ 676,728	\$ (173,212)	-34.40%
Total General Fund Expenditures	<u>\$ 503,516</u>	<u>\$ 676,728</u>	<u>\$ (173,212)</u>	-34.40%

Total General Fund expenditures decreased by \$173,212, or 34.40%, from the previous year. The expenditures decreased in relation to a combination of changes resulting from contract labor and BMP implementation expense.

Special Revenue Fund

The District's Special Revenue Fund was established to manage aquatic watershed projects which receive payments from special assessments from aquatic land owners located within the District.

General Fund Budgetary Highlights

- Actual revenues were \$102,308 less than expected.
- Actual expenditures were \$28,571 less than the budgeted amount.
- No revisions were made to the original adopted budget.

Factors Bearing on the Future and Next Year's Budgets and Rates

The District relies on property tax levies, authorized by underlying state statutes, for a significant portion of its revenue. Continuing surges in land development projects will likely cause the District's activities and expenditures to increase during the next two to five years.

Contacting District Management

This financial report is designed to provide the citizens of Kandiyohi, Meeker, Pope, and Stearns County taxpayers, customers, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. Questions concerning this report or requests for additional financial information should be directed to the Administrator, Middle Fork Crow River Watershed District, PO Box 8, Spicer, MN 56288.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Introduction

The Watershed District was established on April 27, 2005, because the establishment would benefit the public welfare and public interest, and would advance the purpose of Minnesota Statutes Chapter 103D. The Middle Fork Crow River Watershed District includes approximately 271 square miles in Kandiyohi, Meeker, Pope, and Stearns Counties.

The accounting policies of the District conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The following is a summary of the District's more significant accounting policies:

A. Financial Reporting Entity

The District was established in 2005 pursuant to applicable Minnesota laws and statutes. The District consists of five managers with three managers from Kandiyohi County, one manager from Meeker County and one manager from Stearns County. Board elections are held annually on the second regular meeting of the fiscal year.

B. Basic Financial Statements

The financial statements combine fund level (General, Special Revenue, and Debt Service) financial statements and government-wide financial statements (the government activities column). These statements include the financial activities of the overall District.

The General Fund is the primary operating fund of the District and is always classified as a major fund. It is used to account for all activities except those legally or administratively required to be accounted for in other funds.

The Special Revenue Fund is used to account for the proceeds of the specific revenue sources that are restricted to expenditures for specified purposes or designated to finance particular projects or activities of the District.

The Debt Service Fund accounts for the accumulation of financial resources for the payment of principal and interest on the District's general obligation debt and capital leases. The District annually levies ad valorem taxes restricted for the retirement of general obligation bonds.

The governmental activities columns are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations.

C. Measurement Focus and Basis of Accounting

The governmental activities columns are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C. Measurement Focus and Basis of Accounting (continued)

Governmental fund columns (General, Special Revenue, and Debt Service) are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. The Board considers all revenues to be available if collected within 60 days after the end of the current period. Charges for services, grants, and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt, compensated absences, and claims and judgments, which are recognized as expenditures to the extent that they have matured. Proceeds of long-term debt and acquisitions under capital leases, if any, are reported as other financing sources. When both restricted and unrestricted resources are available for use, it is the Board's policy to use restricted resources first, and then unrestricted resources as needed.

D. Cash and Cash Equivalents

The District considers all investment instruments purchased with maturity of three months or less to be cash equivalents. At December 31, 2017, there were no cash equivalents.

E. Receivables

Property taxes are levied and collected by the counties and remitted periodically to the District. The majority of these remittances are made in June and November. Taxes receivable are recognized at the time of the levy. Assessments receivable represent assessments which will be collected by the counties for the District in the years after 2017.

Taxes and special assessments that remain unpaid are classified as delinquent receivables. Delinquent taxes and special assessments represent the past two years of uncollected taxes. Revenue from delinquent property taxes and special assessments not collected within 60 days of year-end are not recognized because it is not known to be available to finance the operations of the District in the current year. No allowances for uncollectable taxes and special assessments have been provided; as such amounts are not expected to be material.

F. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

G. Budgets

The Board has adopted grant budgets for the various grant periods. These budgets may be amended or modified as additional grants are received.

H. Compensated Absences

Under the District's policies, employees are granted paid time off (combined vacation and sick leave) based on their length of services. Unused accumulated vacation time is paid to employees upon termination. Compensated absences are accrued when incurred in the governmental activities column of the financial statements. A liability for this amount is reported in the General Fund.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

I. Unearned Revenue

All District funds and the governmental activities defer revenue for resources that have been received, but not yet earned. Governmental funds also report unearned revenue in connection with receivables for revenues not considered to be available to liquidate liabilities of the current period.

J. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position and fund financial statements will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until that time. Middle Fork Crow River Watershed District has one item that qualifies for reporting in this category – a deferred outflow relating to pension activity, reported in the government-wide statement of net position. A deferred outflow relating to pension activity results from the net effect of the change in proportionate share and employer contributions.

In addition to liabilities, the statement of financial position and fund financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Middle Fork Crow River Watershed District has one item that qualifies for reporting in this category under full accrual basis of accounting. Accordingly, the item, deferred inflow is reported in the government-wide statement of financial position. A deferred inflow relating to pension activity is a result of the net difference between projected and actual earnings on plan investments.

K. Long-Term Obligations

In the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. Bonds payable are reported net of the applicable bond premium or discount.

L. Pensions

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and additions to/deductions from PERA's fiduciary net position have been determined on the same basis as they are reported by PERA except that PERA's fiscal year end is June 30. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

M. Net Position/Fund Balance

The government-wide fund financial statements use a net position presentation. Net position are categorized as net investment in capital assets, restricted and unrestricted.

Net investment in capital assets – This category includes all capital assets, net of accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction or improvement of these assets.

Restricted net position – This category presents external restrictions imposed by creditors, grantors, contributors or laws or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position – This category represents net position of the District, not restricted for any project or other purpose.

NOTES TO FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

M. Net Position/Fund Balance (continued)

In the fund financial statements, fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of resources reported in governmental funds. These classifications are as follows:

Non-spendable – consists of amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact, such as, inventories and prepaid items.

Restricted – consists of amounts related to externally imposed constraints established by creditors, grantors or contributors; or constraints imposed by state statutory provisions.

Committed – consists of amounts that are constrained for specific purposes that are internally imposed by formal action of the Board of Managers. Those committed amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action it employed to previously commit those amounts. These constraints are established by Resolution of the Board of Managers.

Assigned – consists of amounts intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In the General Fund, assigned amounts represent intended uses established by the governing body itself or by an official to which the governing body delegates the authority. Pursuant to District Policy, the Board of Managers is authorized to establish assignments of fund balance.

Unassigned – is the residual classification for the General Fund.

The District uses restricted amounts to be spent first when both restricted and unrestricted fund balance is available. Additionally, the District would first use committed, then assigned, and lastly unassigned amounts of unrestricted fund balances when expenditures are made.

NOTE 2 STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Annual budgets are adopted on a basis consistent with generally accepted accounting principles. The Administrator submits an annual budget to the Board of Managers for the General Fund. Once approved, the Board of Managers may amend the legally adopted budget when unexpected modifications are required in estimated revenues and appropriations.

NOTE 3 DETAILED NOTES ON ALL FUNDS

A. Deposits

In accordance with Minnesota statutes, the District is authorized to designate a depository for public funds and to invest in certificates of deposit. The Minnesota statutes require that all District deposits be protected by insurance, surety bond, or collateral. The market value of collateral pledged shall be at least ten percent more than the amount on deposit plus accrued interest at the close of the financial institution's banking day, not covered by insurance or bonds.

Authorized collateral includes treasury bills, notes, and bond issues of U.S. government agencies; general obligations rated "A" or better and revenue obligations rated "AA" or better; irrevocable standard letters of credit issued by the Federal Home Loan Bank; and certificates of deposit. Minnesota statutes require that securities pledged as collateral be held in safekeeping in a restricted account at the Federal Reserve Bank or in an account at a trust department of a commercial bank or other financial institution that is not owned or controlled by the financial institution furnishing the collateral.

NOTE 3 DETAILED NOTES ON ALL FUNDS (continued)

B. Custodial Credit Risk

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party.

Custodial credit risk is the risk that in the event of a financial institution failure, the District's deposits may not be returned to it. It is the District's policy that collateral or bonds will be required for all uninsured amounts on deposit and the additional insurance will be documented to show compliance with state law and a perfected security interest under federal law. At December 31, 2017, the District deposits were entirely covered by federal depository insurance or collateral held by the District or its agent in the District's name.

C. Interfund Transfers

	Transfer From Special Revenue Fund
Transfer To General Fund	\$ 3,512

The Special Revenue Fund transferred \$3,512 to the General Fund to accrue prior expenses paid by the General Fund that are to be assessed to property owners associated with the area projects.

NOTE 4 INTERFUND ADVANCES

Interfund advances between individual funds of the District, as reported in the fund financial statements, as of December 31, 2017, are detailed below:

	Advance From	Advance To
Advance to Finance DLARA and NLA		
General Fund	\$ 15,787	\$ -
Special Revenue Fund - DLARA	-	672
Special Revenue Fund - NLA	-	15,115
	\$ 15,787	\$ 15,787

The General Fund is covering any shortfalls financially of the Special Revenue Fund until the revenue can be collected. The expenses are to be assessed during 2018 and 2019.

NOTE 5 CAPITAL ASSETS

Capital assets are reported in the governmental activities column of the financial statements. Capital assets are defined by the entity as purchases made for items with an individual cost of \$2,500 or more. Such assets are recorded at historical cost or estimated cost if constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

NOTE 7 PROPERTY TAXES AND SPECIAL ASSESSMENTS

An ad valorem property tax may be levied against all properties in the District with levy limits prescribed by state statute. Property tax levies must be approved by the District Board and certified by the Kandiyohi, Meeker, Pope, and Stearns County Auditors in October of each year for collection in the following year. Taxes are payable to the Counties in two installments by May 15 and October 15.

Special assessment levies may be approved by the District Board for maintenance and construction purposes in accordance with state statutes. These assessments are charged against those properties benefiting from the maintenance and construction. Special assessments must be certified to the County Auditors in a manner similar to property taxes.

Property taxes and special assessments receivable consist of amounts certified to Kandiyohi, Meeker, Pope, and Stearns Counties but not yet collected. Special assessments receivable are recorded when the full levy amount is submitted to the County, though actual assessment against property owners may occur over several years.

NOTE 8 DEFINED BENEFIT PENSION PLANS

A. Plan Description

The Middle Fork Crow River Watershed District participates in the following cost-sharing, multiple-employer, defined benefit pension plans administered by the Public Employees Retirement Association of Minnesota (PERA). PERA's defined benefit pension plans are established and administered in accordance with Minnesota Statutes, Chapters 353 and 356. PERA's defined benefit pension plans are tax qualified plans under Section 401(a) of the Internal Revenue Code.

NOTES TO FINANCIAL STATEMENTS

NOTE 8 DEFINED BENEFIT PENSION PLANS (continued)

A. Plan Description (continued)

1. General Employees Retirement Plan

All full-time and certain part-time employees of the Middle Fork Crow River Watershed District are covered by the General Employees Plan. General Employees Plan members belong to either the Coordinated Plan or the Basic Plan. Coordinated Plan members are covered by Social Security and Basic Plan members are not. The Basic Plan was closed to new members in 1967. All new members must participate in the Coordinated Plan.

Benefits Provided

PERA provides retirement, disability, and death benefits. Benefits provision are established by state statute and can only be modified by the state legislature.

Benefit increases are provided to benefit recipients each January. Increases are related to the funding ratio of the plan. Members in plans that are at least 90% funded for two consecutive years are given 2.5% increases. Members in plans that have not exceeded 90% funded, or have fallen below 80%, are given 1% increases.

The benefit provisions stated in the following paragraphs of this section are current provisions and apply to active plan participants. Vested, terminated employees who are entitled to benefits but are not receiving them yet are bound by the provisions in effect at the time they last terminated their public service.

1. General Employees Plan Benefits

General Employees Plan benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for PERA's Coordinated and Basic Plan members. The retiring member receives the higher of a step-rate benefit accrual formula (Method 1) or a level accrual formula (Method 2). Under Method 1, the annuity accrual rate for a Basic Plan member is 2.2% of average salary for each of the first ten years of service and 2.7% for each remaining year. The annuity accrual rate for a Coordinated Plan members is 1.2% of average salary for each of the first ten years and 1.7% for each remaining year. Under Method 2, the annuity accrual rate is 2.7% of average salary for Basic Plan members and 1.7% for Coordinated Plan members for each year of service. For members hired prior to July 1, 1989, a fully annuity is available when age plus year of service equal 90 and normal retirement age is 65. For members hired on or after July 1, 1989, normal retirement age is the age for unreduced Social Security benefits capped at 66.

B. Contributions

Minnesota Statutes Chapter 353 sets the rates for employer and employee contributions. Contribution rates can only be modified by the state Legislature.

1. General Employees Fund Contributions

Basic Plan members and Coordinated Plan members were required to contribute 9.10% and 6.50%, respectively, of their annual covered salary in calendar year 2017. The Middle Fork Crow River Watershed District was required to contribute 11.78% of pay for Basic Plan members and 7.50% for Coordinated Plan members in calendar year 2017. The Middle Fork Crow River Watershed District's contributions to the General Employees Fund for the year ended December 31, 2017, were \$15,080. The Middle Fork Crow River Watershed District's contributions were equal to the required contributions as set by state statute.

NOTE 8 DEFINED BENEFIT PENSION PLANS (continued)

C. Pension Costs

1. General Employees Fund Pension Cost

At December 31, 2017, the Middle Fork Crow River Watershed District reported a liability of \$159,598 for its proportionate share of the General Employees Fund's net pension liability. The Middle Fork Crow River Watershed District's net pension liability reflected a reduction due to the State of Minnesota's contribution of \$6 million to the fund in 2017. The State of Minnesota is considered a non-employer contributing entity and the state's contribution meets the definition of a special funding situation. The State of Minnesota's proportionate share of the net pension liability associated with the Middle Fork Crow River Watershed District's totaled \$2,045. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Middle Fork Crow River Watershed District's proportion of the net pension liability was based on the Middle Fork Crow River Watershed District's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2016, through June 30, 2017, relative to the total employer contributions received from all of PERA's participating employers. At June 30, 2017, the Middle Fork Crow River Watershed District's proportion share was .0025%. There was no change from its proportion measures as of June 30, 2016.

For the year ended December 31, 2017, the Middle Fork Crow River Watershed District recognized pension expense of \$6,546 for its proportionate share of the General Employees Plan's pension expense. In addition, the Middle Fork Crow River Watershed District recognized an additional \$59 as pension expense (and grant revenue) for its proportionate share of the State of Minnesota's contribution of \$6 million to the General Employees Fund.

At December 31, 2017, the Middle Fork Crow River Watershed District reported its proportionate share of the General Employees Plan's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 5,260	\$ 9,570
Change in actuarial assumptions	26,497	16,000
Difference between projected and actual investment earnings	26,167	27,099
Changes in proportion and differences between contributions made and Entity's proportionate share of contributions	20,730	2,348
Entity's contributions to PERA subsequent to the measurement date	8,055	-
Totals	\$ 86,709	\$ 55,017

Deferred outflows of resources related to pensions, resulting from Middle Fork Crow River Watershed contributions subsequent to the measurement date of \$8,055, will be recognized as a reduction of the net pension liability in the year ended December 31, 2018. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

C. Pension Costs (continued)

1. General Employees Fund Pension Cost (continued)

Year ended December 31:	Pension Expense Amount
2017	\$ 14,802
2018	\$ 18,631
2019	\$ (3,022)
2020	\$ (6,774)

D. Actuarial Assumptions

The total pension liability in the June 30, 2017, actuarial valuation was determined using the following actuarial assumptions:

Inflation	2.50% per year
Active Member Payroll Growth	3.25% per year
Investment Rate of Return	7.50%

Salary increases were based on a service-related table. Mortality rates for active members, retirees, survivors and disabilitants were based on RP 2014 tables for males or females, as appropriate, with slight adjustments to fit PERA's experience. Cost of living benefit increases for retirees are assumed to be 1% per year for all future years for the General Employees Plan through 2044 and then 2.50 percent thereafter.

Actuarial assumptions used in the June 30, 2017, valuation was based on the results of actuarial experience studies. The most recent four-year experience study in the General Employees Plan was completed in 2015.

The following changes in actuarial assumptions occurred in 2017:

General Employees Fund:

- The Combined Service Annuity (CSA) loads were changed from 0.80% for active members and 60% for vested and non-vested deferred members. The revised CSA loads are now 0.00% for active member liability, 15.00% for vested deferred member liability and 3.00% for non-vested deferred member liability.
- The assumed post-retirement benefit increase rate was changed from 1.00% per year for all years to 1.00% per year through 2044 and 2.50% per year thereafter.

The State Board of Investment, which manages the investments of PERA, prepares an analysis of the reasonableness on a regular basis of the long-term expected rate of return using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages. The target allocation and best estimates of geometric real rate of return for each major asset class are summarized in the following table:

D. Actuarial Assumptions (continued)

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic Stocks	39%	5.10%
International Stocks	19%	5.30%
Bonds	20%	0.75%
Alternative Assets	20%	5.90%
Cash	2%	0.00%
	<u>100%</u>	

E. Discount Rate

The discount rate used to measure the total pension liability in 2017 was 7.50%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at rates set in Minnesota Statutes. Based on these assumptions, the fiduciary net position of the General Employees Fund was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

F. Pension Liability Sensitivity

The following presents the Middle Fork Crow River Watershed District's proportionate share of the net pension liability for all plans it participates in, calculated using the discount rate disclosed in the preceding paragraph, as well as what the Middle Fork Crow River Watershed District's proportionate share of the net pension liability would be if it were calculated using a discount rate 1 percentage point lower or 1 percentage point higher than the current discount rate:

Sensitivity of Net Pension Liability at Current Single Discount Rate		
	General Employees Fund	
1% Lower	6.50%	\$ 247,549
Current Discount Rate	7.50%	\$ 159,598
1% Higher	8.50%	\$ 87,595

G. Pension Plan Fiduciary Net Position

Detailed information about each pension plan's fiduciary net position is available in a separately-issued PERA financial report that includes financial statements and required supplementary information. That report may be obtained on the Internet at www.mnpera.org.

NOTE 9 OTHER POST EMPLOYMENT BENEFITS

The District does not accrue a liability for other post-employment benefits because they do not have an employer sponsored health plan.

NOTE 10 SUBSEQUENT EVENTS

Management has evaluated subsequent events through May 29, 2018, the date the financial statements were available to be issued.

MIDDLE FORK CROW RIVER WATERSHED DISTRICT
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
December 31, 2017

NOTE 1 BUDGETARY INFORMATION

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the General Fund. All annual appropriations lapse at fiscal year-end unless specifically carried over to the next budget year by Board action.

On or before mid-June of each year, the District Manager prepares a draft budget for the upcoming fiscal year. Before September 15, the proposed budget is presented to the District Board for review. The Board holds public hearings and a final budget must be prepared and adopted no later than September 15.

The appropriated budget is prepared by fund and function. The legal level of budgetary control (the level at which expenditures may not legally exceed appropriations) is the function level.

NOTE 2 CHANGES IN ACTUARIAL ASSUMPTIONS

General Employees Fund

2017 Changes

Changes in Actuarial Assumptions:

- The Combined Service Annuity (CSA) loads were changed from 0.8 percent for active members and 60 percent for vested and non-vested deferred members. The revised CSA loads are now 0.0 percent for active member liability, 15.0 percent for vested deferred member liability and 3.0 percent for non-vested deferred member liability.
- The assumed post-retirement benefit increase rate was changed from 1.0 percent per year for all years to 1.0 percent per year through 2044 and 2.5 percent per year thereafter.

2016 Changes

Changes in Actuarial Assumptions:

- The assumed post-retirement benefit increase rate was changed from 1.0 percent per year through 2035 and 2.5 percent per year thereafter to 1.0 percent per year for all years.
- The assumed investment return was changed from 7.9 percent to 7.5 percent. The single discount rate was changed from 7.9 percent to 7.5 percent.
- Other assumptions were changed pursuant to the experience study dated June 30, 2015. The assumed future salary increases, payroll growth, and inflation were decreased by 0.25 percent to 3.25 percent for payroll growth and 2.50 percent for inflation.

2015 Changes

Changes in Plan Provisions:

- On January 1, 2015 the Minneapolis Employees Retirement Fund was merged into the General Employees Fund, which increased the total pension liability by \$1.1 billion and increased the fiduciary plan net position by \$892 million. Upon consolidation, state and employer contributions were revised.

Changes in Actuarial Assumptions:

- The assumed post-retirement benefit increase rate was changed from 1.0 percent per year through 2030 and 2.5 percent per year thereafter to 1.0 percent per year through 2035 and 2.5 percent per year thereafter.

OTHER REQUIRED REPORTS

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of Managers
Middle Fork Crow River Watershed District

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of Middle Fork Crow River Watershed District as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the Middle Fork Crow River Watershed District's basic financial statements, and have issued our report thereon dated May 29, 2018.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Middle Fork Crow River Watershed District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses may exist that were not identified. However, as described in the accompanying Schedule of Findings and Recommendations, we identified certain deficiencies in internal control over financial reporting that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies described in the accompanying Schedule of Findings and Recommendations, as item 2008-001 to be material weaknesses.

A *significant deficiency* is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying Schedule of Findings and Recommendations, as items 2007-001 and 2007-002 to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Middle Fork Crow River Watershed District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Minnesota Legal Compliance

The *Minnesota Legal Compliance Audit Guide for Political Subdivisions*, promulgated by the State Auditor pursuant to Minn. Stat. § 6.65, contains six categories of compliance to be tested: contracting and bidding, deposits and investments, conflicts of interest, public indebtedness, claims and disbursements, and miscellaneous provisions. Our audit considered all of the listed categories.

In connection with our audit, nothing came to our attention that caused us to believe that Middle Fork Crow River Watershed District failed to comply with the provisions of the *Minnesota Legal Compliance Audit Guide for Political Subdivisions*. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the District's noncompliance with the above referenced provisions.

Middle Fork Crow River Watershed District's Response to Findings

Middle Fork Crow River Watershed District's responses to the findings identified in our audit is described in the Schedule of Findings and Recommendations. The District's responses were not subject to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

SCHEDULE OF FINDINGS AND RECOMMENDATIONS
Year Ended December 31, 2017**

I. FINDINGS RELATED TO FINANCIAL STATEMENTS

PREVIOUSLY REPORTED ITEMS NOT RESOLVED

Finding 2007-001

Criteria:

Generally, a system of internal control contemplates separation of duties such that no individual has responsibility to execute a transaction, have physical access to the related assets, and have responsibility or authority to record the transaction.

Condition:

Due to the limited size of the District's business staff, the District has limited segregation of duties.

Questioned Costs:

None

Context:

The District has informed us that the small size of its business office staff precludes proper separation of duties at this time.

Effect:

The District is unable to maintain separation of incompatible duties.

Cause:

Limited number of staff in the business office.

Recommendation:

We recommend that the District continue to separate incompatible duties as best it can within the limits of what the District considers to be cost beneficial.

CORRECTIVE ACTION PLAN (CAP)

Finding 2007-001

Explanation of Disagreement with Audit Finding:

There is no disagreement with the audit finding.

Actions Planned in Response to Finding:

The District reviews and makes improvements to its internal controls on an ongoing basis, and attempts to maximize the segregation of duties in all areas within the limits of the staff available.

I. FINDINGS RELATED TO FINANCIAL STATEMENTS (continued)

PREVIOUSLY REPORTED ITEMS NOT RESOLVED (continued)

Finding 2007-002

Criteria:

Generally, a system of internal control includes the ability to understand and prepare the District's financial statements and related disclosures in accordance with accounting principles generally accepted in the United States of America (GAAP).

Condition:

Due to the limited size of the District's business staff and related resources available, the District has relied upon the auditor to prepare the financial statements and related disclosures in accordance with accounting principles generally accepted in the United States of America.

Questioned Costs:

None

Context:

The District has informed us that the small size and qualifications of its business office staff precludes the District from preparing its own financial statements.

Effect:

The District is unable to prepare GAAP based financial statements.

Cause:

Limited number and qualifications of staff in the business office.

Recommendation:

We recommend that the District continue to review the auditor-prepared financial statements with the intention of understanding and acceptance of responsibility for reporting under generally accepted accounting principles.

CORRECTIVE ACTION PLAN (CAP)

Finding 2007-002

Explanation of Disagreement with Audit Finding:

There is no disagreement with the audit finding.

Actions Planned in Response to Finding:

The District reviews draft financial statements with the auditor in an effort to increase management's understanding and to provide input into the required disclosures.

I. FINDINGS RELATED TO FINANCIAL STATEMENTS (continued)

PREVIOUSLY REPORTED ITEMS NOT RESOLVED (continued)

Finding 2008-001

Criteria:

A control deficiency exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent or detect misstatements of the financial statements on a timely basis. A control deficiency that typically is considered significant is the identification by the auditor of a material misstatement in the financial statements that was not initially identified by the entity's internal control.

Condition:

During our audit, we proposed numerous adjustments that resulted in significant changes to the District's financial statements.

Questioned Costs:

None

Context:

The District's limited size, training and qualifications of business office personnel have precluded the District from the ability to properly identify and correct financial misstatements.

Effect:

The District's inability to detect material misstatements in the financial statements increases the likelihood that the financial statements may not be fairly presented.

Cause:

Inadequate internal controls and monitoring of internal controls by qualified District personnel.

Recommendation:

We recommend that the District review internal controls currently in place, then design and implement procedures to improve internal controls over financial reporting to detect misstatements in the financial statements.

CORRECTIVE ACTION PLAN (CAP)

Finding 2008-001

Explanation of Disagreement with Audit Finding:

There is no disagreement with the audit finding.

Actions Planned in Response to Finding:

The District will continue to review internal controls and work to design modifications that will increase internal control and the ability to detect material misstatements.
